## SEEING MACHINES

Paul McGlone, CEO

### **TECHNOLOGY TO DRIVE A SAFER WORLD**

Industry leading
operator state
monitoring technology
that enhances transport
related safety and
operational
performance in real
time in the real world.

Global and local partnerships and collaborations that underpin industry acceptance and the efficacy of our technology.

Applied Human Factors approach to our current and future technology development and validation.

## THE WHY OF OUR TECHNOLOGY

1.3M

People killed worldwide annually in road accidents

13%

Of fatal vehicle accidents involve large trucks

\$836B1

Vehicle accidents cost 4% GDP in USA per year

13%

Of all US trucking accidents caused by fatigue

3,100

fatal crashes in US in 2016 involved distracted drivers

Global aviation fleet set to double over next 20 years

9%

Of all fatal crashes in the US in 2016 involved distraction

800,000 new pilots required in next 20 years, fully trained

### **GUARDIAN**

Reduction in fatigue events

cell phone use

### **INVESTMENT HIGHLIGHTS**

- Award-winning DMS technology with validation from 6 OEMs and multiple Tier 1 automotive suppliers
- Breakthrough technology with commercial applications across multiple industries
- First-mover advantage with industry proven, validated technology underpinned by 2 decades of deep expertise
- Market inflection point for DMS is now
- After-market DMS now connected to more than 20,000\*
   commercial vehicles in 30 countries
- Significant, naturalistic data set with over 3.5 billion kms naturalistic driving data
- Large addressable markets, strong growth drivers
- Safety and transport regulation accelerating demand for DMS across a range of sectors
- Strong board and leadership team

### **CLEAR TECHNOLOGY LEADERSHIP**

#### **COMPETITIVE STRENGTH**

Award-winning DMS Technology

- Proven system reliability
- Driver State roadmap (feature set aligned with industry)
- Single camera packaging flexibility offering reliable optionality
- Flexible hardware options
- DMS System expertise algorithms, software, hardware, optical path
- Human Factors expertise

IP built up over two decades:

- 19 patents on technology
- >50 registered trademarks, more in progress
- >A\$55 million spend on R&D in past 5 years ~ 120 engineers on staff

## DEDICATED ALGORITHM IMPROVEMENT

**3.5 BILLION KILOMETRES** of naturalistic driving data collected

- >5.5 million distraction events
- 137 thousand fatigue interventions in past 12 months

### REGULATION

## Industry wide adoption being driven by strong regulatory tailwinds

- Euro NCAP:"Roadmap 2025 –in pursuit of vision zero"
- European Commission: "Europe on the Move"
- National Transportation Safety Board in US investigates automated vehicle accidents

- Point to incentives for safety rating (5star) ~ camera based DMS technology
- Multiple strategic workshops with major global OEMs to determine NCAP product strategy
- Growing insurance industry advocacy for driver monitoring

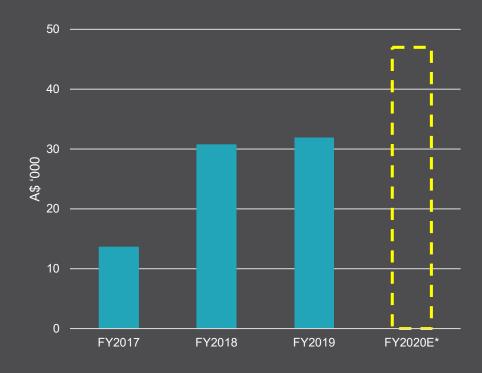

## FY19 TRADING UPDATE

#### **SALES REVENUE BY DIVISION**

DIVISION	SALES REVENUE		
	FY2019 A\$'000	FY2018 A\$'000	Variance %
Automotive	9,416	8,084	16
Off-road	7,067	3,725	90
Fleet	13,714	17,218	(20)
Aviation	304	189	61
Scientific Advances	1,387	1,500	(8)
SALES REVENUE	31,888	30,716	4

- Overall increase of 4%
- Annualised Recurring Revenue of A\$12m at 30 June 2019
- Fleet revenue increased by over 200% from H1 (A\$4.2m) to H2 (A\$9.5m)

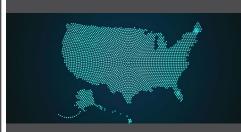

#### YEAR ON YEAR SALES REVENUE

\*Expected figures in the range A\$45m to A\$50m

### **AUTOMOTIVE BUSINESS - STATUS**

## **Europe and North America**

Established and validated with 6 OEMs in the region on 9 current automotive programs – revenue potential of A\$200m

# Market Share approaching 30%

Strong OEM engagement
Tier 1 strategic
partnerships
Unique advantage for
NCAP

### **Expansion in Asia**

Japan and Korea opening
up with additional
opportunities for DMS,
Seeing Machines active
with in-country staff and
strategic Tier 1
engagements

## **Pipeline**

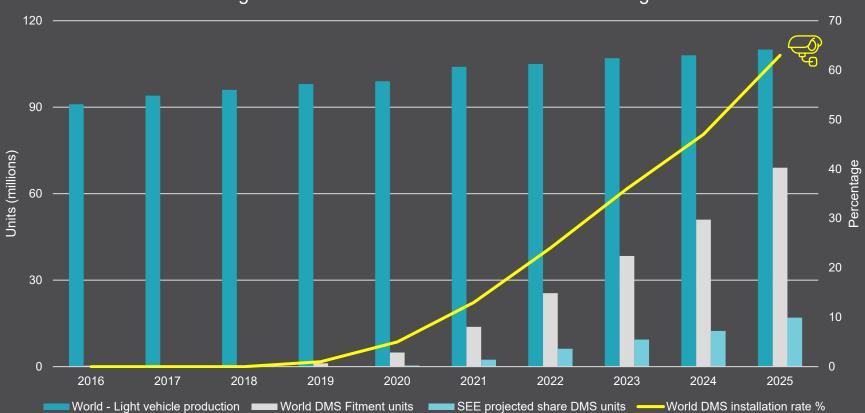

## Continued work on RFQs

Range of RFQs continue to be resolved over coming months. More expected out of new and existing geographies.

## **DMS MARKET GROWTH**

#### DMS market growth drives total addressable market for Seeing Machines

#### Source: Semicast Research (2019 edition)

Note: Company projected market share did not come from Semicast Research

## FLEET BUSINESS - INCREASING MOMENTUM

#### **Product**

- Quality improvements
- Performance
- Next generation

#### **Cost Reduction**

- Guardian hardware cost reduced by 20%
- Cost to serve ongoing focus for continued improvements

## Channel Momentum

- Expanding network
- Insurance opportunities
- Global regulatory driven momentum

## Recurring Revenue and Cashflow

- Accelerated installation rate to generate ARR faster
- Revised commercial terms to streamline cashflow

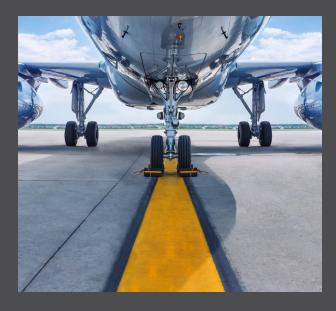

### AVIATION

\_

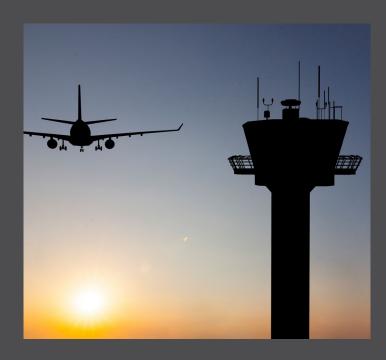

### SIMULATOR / FLIGHT TRAINING

- +4,000 Full Flight/Mission Simulators
- +800,000 pilots required next20 years
- Support: pilot training, automation, instructor workload, pilot monitoring

#### **AIRCRAFT / PILOT SUPPORT**

- +44,000 **new** aircraft in next 20 years
- +50,000 total commercial fleet size in 20 years
- Support: Fatigue, pilot monitoring,, reduced crew / single pilot operations

#### **CONSOLES / AIR TRAFFIC CONTROL**

- More planes, flying closer together, +100,000 ATC seats globally
- Significant reliance on automation, demanding shift operations (24/7)
- Support: passive controller in automated air traffic environment

### SUMMARY

Automotive market for DMS developing quicker than expected. SEE opportunity accelerating –industry leading Al-driven DMS technology and significant, naturalistic dataset

Regulation driving demand across all transport sectors, especially in Europe and North America

FOVIO Chip introduced providing scalable, upgradable delivery of software into high volume markets

NCAP variant launched to address low cost, high performing fast-tomarket solution

Focus on profitable recurring revenue

Insurance channel developing fast as move to endorse product for improved risk profile

Significant opportunities in emerging transport markets with key partners

Strategy shift to leverage Intellectual Property asset across transport sectors to expedite mass-market deployment in strategic markets.

Validated, scalable, world-leading DMS technology
